

Radleys Primary School

Understanding of the World:

It is important for children in early years to develop a good understanding of the world around them. At Radleys, children will explore their immediate world through hands on experiences wherever possible. We offer a variety of trips or in house visitors to support and stimulate learning as appropriate. Most recently, we have visited the local post office as we learn about the role of the postal worker in our people who help us topic. Likewise, we also ventured out of school to learn and practise the vital skill of road safety. A visit from 'Zoo Lab' helped to support our Wonderful World topic and we are in the process of organising our end of year trips to the farm and to Cannock Chase! All these experiences help to foster children's understanding of our culturally, socially and ecologically diverse world.

When real life experiences are not possible, our curriculum is supplemented with practical resources, stories and books, experiments and investigations, videos and other stimulus such as music, for example.
