- Computing-Website Creation

## In Maths we are learning:

- Fractions
- Position and Direction
- Decimals
- Percentages
- Perimeter, area & volume
- Properties of shape

## In Science we are learning:

### Light

- use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye
- explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes
- use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them
